# PARKS UPDATES & ANNOUNCEMENTS

## VETERANS MEMORIAL

We are pleased to have started the conceptual planning for a memorial to honor those who have served. A public space or facility that the community can reflect on those who sacrificed for our country. We are reaching out to the community to identify a site, themes, concepts, ideas, and thoughts that will serve as a guide to bring the Veterans Memorial plan to reality.

### We want to hear from you!

The Parks and Recreation Department, in conjunction with the consulting firm, Shapiro/Didway, has been connecting with diverse focus groups for feedback on this project and a stakeholder advisory committee has been formed to provide additional input and guidance. We would also like to invite and encourage community members to participate in the public engagement meetings or visit our website to share your input by taking a survey.

### We want to know

- What is a memorial to you?
- How could you use this space?
- What story should this space tell?
- What feeling should this space evoke?
- How can it contribute to the community?

### Results

The answers to these questions will help identify major themes and concepts that will be used to explore and determine potential sites. A final report will document this planning process, community feedback, and a preferred memorial site. Following this, the next step is to investigate potential funding opportunities for design and construction.

Please visit this site for updates, meeting schedule and to take the survey [www.tualatinoregon.gov/recreation/veterans-memorial](http://www.tualatinoregon.gov/recreation/veterans-memorial)

### Come tell us what you want!

We hope you will join us to share your ideas and learn more about the process at a series of public engagement meetings. We hope you will join us at one or all three!

## MONUMENTO A LOS VETERANOS

Nos complace haber comenzado la planificación conceptual de un monumento conmemorativo para honrar a quienes han servido. Un espacio público o instalación que la comunidad puede reflejar sobre aquellos que se sacrificaron por nuestro país. Nos estamos acercando a la comunidad para identificar un sitio, temas, conceptos, ideas y pensamientos que servirán como guía para hacer realidad el plan del Monumento a los veteranos.

### ¡Queremos escuchar de usted!

El Departamento de Parques y Recreación, en conjunto con la firma consultora Shapiro / Didway, se ha conectado con diversos grupos focales para recibir comentarios sobre este proyecto y se ha formado un comité asesor de partes interesadas para proporcionar información y orientación adicional. También nos gustaría invitar y alentar a los miembros de la comunidad a participar en las reuniones de participación pública o visitar nuestro sitio web para compartir sus comentarios mediante una encuesta.

### ¿Qué representa para usted un monumento conmemorativo?

- ¿Cómo podría usar este espacio?
- ¿Qué historia debe contar este espacio?
- ¿Qué sentimiento debe evocar este espacio?
- ¿Cómo puede contribuir a la comunidad?

### Resultados

Las respuestas a estas preguntas ayudarán a identificar los principales temas y conceptos que se utilizarán para explorar y determinar sitios potenciales. Un informe final documentará este proceso de planificación, comentarios de la comunidad y un sitio conmemorativo preferido. Después de esto, el siguiente paso es investigar posibles oportunidades de financiación para el diseño y la construcción.

### ¡Venga y díganos lo que desea!

Esperamos que se una a nosotros para compartir sus ideas y aprender más sobre el proceso en una serie de reuniones de participación pública. ¡Esperamos que se una a nosotros en uno o los tres!

## LAFKY PARK IRRIGATION IMPROVEMENTS

It is a bit strange to think about water conservation this time of year, but preserving this resource is important all year long. With this in mind, we are replacing the 30-year-old irrigation system. The outdated system was prone to costly repairs and lacked efficient water coverage.

### Update includes

- All new plumbing
- Spray heads with built-in flow sensors
- Smart controller system with remote access

We hope to implement this new technology at larger parks and sports fields where water usage is higher once this new technology is perfected on a smaller scale. This is a big step as we work towards water conservation and meeting the City Council goal of an environmentally responsible community.

## WE HEARD YOU SCOOP THE POOP!

Tualatin residents and their four legged friends requested additional dog waste stations in a few spots around town. The Parks and Recreation team heard you! We have been fulfilling this need and applaud your effort to keep this a clean and safe community for all.

### Benefits of Scooping the poo

- Keeps pollutants out of waterways
- Prevents the spread of harmful organisms that could affect both pets and humans
- Your neighbors will like you more!

### New waste stations can be found

Little Woodrose Park –at the Boones Ferry entrance

Chieftain/Dakota Greenway – East of SW Dakota Dr

A waste station was installed in November on the Saum Creek Trail on Port Orford by an Eagle Scout.
